

Eleazer A Patil

Power Platform Solution Architect | Digital Workplace & Automation Leader

Power Platform Solution Architect with 10+ years of experience delivering enterprise automation and digital workplace platforms across global organizations. Proven expertise in designing scalable Microsoft Power Platform and SharePoint solutions, establishing governance-aligned design standards, and leading cross-functional initiatives that connect business strategy with technology execution. Strong background in UX-led architecture, solution lifecycle practices, and stakeholder-driven digital transformation.

EXPERIENCE

OCT 2023 – PRESENT

DELOITTE – Deputy manager

Lead innovation-focused, enterprise-grade Power Platform and SharePoint solutions supporting global and Australia MCBF business functions.

Define and implement scalable architecture patterns integrating Power Apps, Power Automate, Dataverse, and SharePoint Online.

Guide data structures, security models, and access strategies in alignment with enterprise compliance and governance standards.

Lead technical design reviews and UX-driven architecture decisions to ensure usability while maintaining platform integrity and scalability.

JUN 2022 – SEP 2023

DELOITTE – Assistant manager

Led scalable SharePoint and Power Platform solution design supporting marketing and operations functions.

Designed reusable application architectures using Power Apps, Power Automate, and SharePoint Online, introducing consistent design patterns and component reuse across automation initiatives.

Collaborated with cross-functional teams to align solutions with data governance, security standards, and environment planning considerations.

Provided technical leadership through UX workshops, discovery sessions, best-practice guidance, and contributions to solution lifecycle management.

SEP 2019 – JUN 2022

DELOITTE – Sr. SharePoint Developer

Developed enterprise SharePoint portals and SPAs using AngularJS and SharePoint REST APIs.

Led taxonomy structuring and content governance initiatives.

Built responsive UI frameworks improving internal collaboration experiences.
